Empire Grove Camp meeting at East Poland, Me., commences Thursday evening, Aug. 15, and closes Monday, Aug. 19. A very interesting program has been arranged. The presiding officer, Rev. C. F. Parsons, will have charge of the services with Rev. C. A. Brooks as assistant superintendent.

## SUMMER JEWELRY.

### CUFF PINS.

Gold and gold filled, many pretty patterns. In those handy little pins, prices are from 25c. to \$2.00 a pair.

### LINK BUTTONS.

Solid gold, filled and silver, attractive buttons at attractive prices, 50c. to \$5.00.

### FOBS.

Both ladies and gentlemen now wear fobs; they are used on all occasions, gold filled and silk fobs, many different patterns costing from 35c. to \$4.50.

These are only three items out of an unusually large showing of jewelry for a town of this size.

## Edward King, Bethel, Maine.

### SUDDEN DEATH.

Mrs. Fannie Mercer Suffered Severe Fright and Died of Heart Failure.

Among the many Bethel people who were in the circus tent last Saturday night when the terrible thunder storm struck was Mrs. Fannie Mercer. All were terror stricken and made a wild stampede to get out of the tent, fearful lest the gate would sweep it to the ground.

Refuge was taken in the overhead bridge, where in the darkness were assembled scores of people completely drenched from the driving rain. Among them came teams, an automobile, two elephants and a camel from the circus tents which made somewhat of a bad mixup in the north entrance of the bridge. The lightning was so sharp and the thunder so terrific that many have to admit that if ever in their lives they were scared, they were scared then and there.

Mrs. Mercer, who has suffered more or less from weakness of the heart, was badly frightened and suffered a severe shock while in the bridge as the result of the pandemonium and terrible storm. She was quickly driven home in the automobile and physician summoned, but she was found in a critical condition and passed away a little past midnight. Her sudden death came as a shock to the people of Bethel who unite in profound sympathy for the bereaved husband and children.

Funeral services were held at Gardinal chapel Tuesday afternoon, Rev. C. N. Gleason officiating.

News has been received of the death of Gen. John Marshall Brown of Portland, from appendicitis, Saturday. Gen. Brown is well known in Bethel and was a former United States Academy student.

Mr. and Mrs. Quinn Twitchell of South Boston and Mr. Osmund Twitchell of Westbrook came to Bethel to attend the funeral of their sister, Mrs. Fannie Mercer.

The ladies of the Universalist parish will hold a cake and ice cream sale on the lawn of Mrs. Oliver C. Young, Main street, Saturday afternoon.

Mr. J. S. Hish visited his family at their summer camp, "The Roost" on Moose Pond, Saturday and Sunday.

Misses Millie and Berta Shaw have gone to the White Mountains to work as waitresses at a hotel there.

Mr. J. S. Hish visited his family at their summer camp, "The Roost" on Moose Pond, Saturday and Sunday.

Misses Millie and Berta Shaw have gone to the White Mountains to work as waitresses at a hotel there.

Mr. J. S. Hish visited his family at their summer camp, "The Roost" on Moose Pond, Saturday and Sunday.

Misses Millie and Berta Shaw have gone to the White Mountains to work as waitresses at a hotel there.

Mr. J. S. Hish visited his family at their summer camp, "The Roost" on Moose Pond, Saturday and Sunday.

## BRYANT'S POND.

Rev. S. G. Davis of Norway preached at the Universalist church last Sunday, taking the place of Rev. Mr. Eason, who was unable to come.

Mrs. Eva Bryant has been quite sick the past week. Dr. Wheeler is attending her.

Walter Small and wife passed Sunday with Mrs. R. K. Doolittle.

Hunt's Circus gave a good show here Friday. The attendance was small.

The cottages are all filled with summer people, and quite a few are staying at Ricker's boarding house.

Last week was a perfect week for buying and about every farmer in this section stored a lot of hay in fine condition.

B. B. Estes has moved back to his farm from Norway.

M. J. Billings has exchanged farms with Charles McGinnis.

H. M. Estes, who was recently injured on a bridge near Montreal, is again but not able to take charge of his job yet.

## LOCKE MILLS.

Mr. and Mrs. Fred R. Penley and son drove to West Paris Saturday and visited relatives.

Mrs. John Marshall and little daughter of West Paris are entertaining friends from Portland at camp Bethel.

Mr. and Mrs. E. L. Tobeys are spending the week in Boston.

Guy Coffin of Meriden Falls spent Sunday here.

Miss Celia Estes of Massachusetts is the guest of Miss Beas George.

Mr. and Mrs. D. B. Grant and son have returned from Underwood Springs where they enjoyed a week's outing.

Mr. and Mrs. Chris Bryant went to Berlin Sunday.

Mr. and Mrs. Oscar Swan and children attended the circus at Bethel Saturday.

Mr. Henry Cummings and family of Auburn are enjoying an outing at Davis camp.

## NEWRY.

Mrs. Lucetta Bartlett has returned to her home on Sunday river.

Mrs. Fricella Foster is visiting at W. D. Kilgore's a few days.

Quite a number of people from this place attended the circus at Bethel last Saturday.

Mr. and Mrs. Charles Douglass from Lakeside, N. H., called at A. H. Powers' last Saturday.

## GROVER HILL.

Mr. Fred Mundi, who has been suffering with an injured foot, is able to be about his work again.

Mrs. Clara Abbott and Mrs. Bert Foster were here last Tuesday.

Mr. E. R. Whitman and daughter, Alta, from Boston are guests at A. L. Whitman's.

Mr. and Mrs. Peter Wheeler are entertaining guests this week.

R. H. Mayberry was the first to fish today in the place.

A. H. Grover and family recently visited at West Bethel.

H. M. Kendall from Sunday River is making Fred Mundi during the busy season.

## MAGALLOWAY.

Miss Grace Adams of East Bethel is now visiting her aunt, Mrs. Lewis Leavitt.

She attended the dedication hall at Wilson's Mills with her cousin.

Mr. and Mrs. Tracy of Caledonia have come to the Brown farm to take the place of Mr. and Mrs. Lary.

Mr. Lewis Leavitt went to Enroll Saturday.

A dedication hall took place at the new grange hall at Wilson's Mills Friday evening. A large attendance was present.

Music was furnished by the Berlin band.

Mr. Lee Wilson, who bought a farm and moved to Milan, is now cutting hay on his place here.

M. C. Linnell, who has been guiding at the Umbagog Lake, is now at home.

Mr. Horace Bennett of Wilson's Mills passed through town last Sunday afternoon with a load of plants for the Parnachene Club.

## NORTH LOVELL.

Herbert Adams has let his cottage near the lake to a party from Massachusetts, and has moved into Perley McKee's house.

Mr. and Mrs. Lyman Hilton entertained Mrs. Esther Garcelon and son, Charlie, and Mr. and Mrs. Bert Garcelon from North Lovell last Saturday afternoon and evening.

Augustus Andrews has built a new stable and has a fine large boarding house in process of erection on his lake near lake Kazar. He has recently bought a new motor boat.

Perley McKee has been cutting his hay on his place in this vicinity.

Carroll McAllister of North Waterford is staying with his grandparents, Mr. and Mrs. J. C. Sawyer, this week.

Blanch and Josie Adams of North Stancham are working for Will Farrington at Lovell Center.

Daisy Hill of North Lovell recently visited her friend, Mrs. Van Hilt, for a few days.

A terrific thunder shower passed over here last Saturday evening but we have not learned of any damage being done.

L. J. Gammon had a telephone put into his house last week.

Forest McAllister, wife and three children of Norway visited their uncle, H. B. McKee last week.

Last Wednesday, the 17th, was one of the hottest days we have had. The thermometer stood at 91 most of the day.

Wilrose Adams of Boston, who with his wife is staying for the summer with his father, Wm. Adams of North Stancham, has been quite ill, but is reported as gaining in health.

Some of our neighbors are being afflicted with bad colds this hot weather.

## STATE OF MAINE.

County of Oxford:

Bethel, Me., June 14, 1907.

In conformity with the provisions of Sec. 129 of Chapter 47 of the Revised Statutes as amended by Chapter 52 of the Public Laws of 1903, the following is published as a list of officers and incorporators of the Bethel Savings Bank elected at the annual meeting held at said bank on Wednesday, June 12, 1907, and being within thirty days after said election.

Officers: President, J. M. Philbrook; Treasurer, A. E. Herriek; Secretary, A. E. Herriek.

Trustees: J. M. Philbrook, G. P. Bean, J. U. Farrington, E. S. Kilborn, N. B. Brown, Seth Walker, H. N. Upton.

Incorporators: J. M. Philbrook, J. S. Hutchins, F. B. Tuell, G. P. Bean, F. Z. Hanson, J. G. Gehring, J. U. Farrington, W. E. Boserman, E. L. Tobeys, E. S. Kilborn, E. H. Young, E. E. Whitney, N. F. D., F. B. Merrill, T. G. Lary, Seth Walker, E. C. Bowler, F. J. Russell, H. N. Upton, J. C. Billings, L. H. Wright, A. E. Herriek, F. F. Bean, E. M. Walker, E. C. Park, A. W. Grover, H. H. Bean, C. E. Barker, W. B. Wight, C. C. Bryant, W. B. Barnes, I. C. Jordan.

A. E. HERRICK.

Secretary.

## STATE OF MAINE.

Educational Department.

August, July 1, 1907.

The annual examination of candidates for State certificates will occur Friday, August 30, 1907, beginning at 8 o'clock a. m.

Examinations will be held at such of the following named places as a sufficient number of candidates shall register for, namely, Alfred, Augusta, Bethel, Biddeford, Bingham, Brunswick, Calais, Cherryfield, Ellsworth, Fort Fairfield, Guilford, Houlton, Kittery, Lincoln, Machias, Mechanic Falls, Milo, Newburg, N. Berwick, Norway, Oakland, Old Town, Pembroke, Presque Isle, Rumford Falls, Skowhegan, Warren, Winterport, Winthrop, Yarmouth.

If any ten candidates desire to take the examination at any place other than the above, arrangements will be made therefor. The final list of places will be announced about August 15, and notice thereof will be sent to all who have registered at that time by sending in preliminary examination reports, blanks for which will be furnished on application. Circulars of information, suggestion and advice will be sent to all desiring them.

FAYSON SMITH, State Supt. of Public Schools.

FOR SALE.—Two horse mowing machines, 5 foot cut, in good repair. Also buggy wagon, nearly new. Inquire of F. J. RESELE, Bethel, N. H.

LOST.—In Bethel about June 5th, crank to a Ford automobile. Finder will be suitably rewarded by notifying H. F. THURSTON, Newry, Me.

His High Purpose.

"When I started in business," said the self-made man, "I made up my mind that for me there should be no such word as 'fail'."

"Yet it is generally understood that you get most of your money while acting as a receiver."

"Well, as long as other people insisted on failing I felt that it was no more than right to discourage the practice as much as possible."—Chicago Record-Herald.

There is one thing that will cure it—Ayer's Hair Vigor. It is a regular scalp-medicine. It quickly destroys the germs which cause this disease. The unhealthy scalp becomes healthy. The dandruff disappears, and to disappear. A healthy scalp means a great deal to you—healthy hair, no dandruff, no pimples, no eruptions.

The best kind of a foot-powder. Sold for over sixty years.

Ayer's Hair Vigor.

White oaks have few side roots, but each has one long tap root which extends far down into the ground. These roots get most of their food from the clay subsoil below. Lime and manure have a number of side roots which extend far out in the surface layer. They get the bulk of their food from the surface 12 inches of soil. Oaks should never be attempted in very rich soil, or clay and manure in poor clay soils.

Clay soils and soils which become packed easily, need organic matter. To these soils a great deal of manure should be applied or they should be seeded to some kind of grass. The grass roots decay and increase the amount of organic matter.

Gray soils which become packed easily, need organic matter. To these soils a great deal of manure should be applied or they should be seeded to some kind of grass. The grass roots decay and increase the amount of organic matter.

Gray soils which become packed easily, need organic matter. To these soils a great deal of manure should be applied or they should be seeded to some kind of grass. The grass roots decay and increase the amount of organic matter.

Gray soils which become packed easily, need organic matter. To these soils a great deal of manure should be applied or they should be seeded to some kind of grass. The grass roots decay and increase the amount of organic matter.

## TILE DRAINS.

How They Should Be Laid and a Device That Will Aid.

Where there is a sufficient grade, there is little to contend with in laying tile. From the point where the water stands, the shortest possible cut should be taken through the dry land to the outlet. If, however, there is a great deal of compact blue clay between the marsh and the desired outlet, it is sometimes more economical to run the ditch around these deposits than to attempt to cut through them. If the ditch is cut through such clay, it is advisable to fill in a layer of coarse gravel just before filling in the clay. This will prevent the finer particles of the clay from entering and stopping up the tile.

When the land is nearly level and it is difficult to tell just where the ditch should be run to "get the fall," a simple device can be made similar to the one shown. Take a 2x6, 16 feet long, and to the middle of this bolt an upright piece four feet long. To

the top of this upright piece attach a string with a plumb bob at the bottom. Near the lower end of the bob, tack a foot rule one inch above the lower end of the upright piece. Set this device in the ditch. If the bob rests on O, exactly under the point where it is attached to the upright plank, there is no fall whatever. If it moves to the left from O, there is a fall of about ten feet to the mile for each eighth of an inch the plumb bob removes to the left from O. As soon as the fall is determined under the device, remove it 16 feet to the left and determine the fall there.

It is considered that a fall of five feet to the mile is ample; however, many ditches are laid with a fall of only three feet to the mile. The greater the fall, the less liable the ditch is to become clogged, and where it is possible, the fall should be at least ten feet to the mile.

WEIGHING BY FIGURES.

Rules for the Measurement of Hay in Stacks.

A ton of dry hay contains all the way from 300 to 600 cubic feet, depending on the length of the hay it has been stacked and its quality.

The rules for measuring hay vary in different localities, a cube of seven feet being considered in some places a ton and a cube of eight feet being considered a ton at other places. We would like to sell hay by the seven foot plan and buy it by the eight foot plan. A cube of hay eight feet each way will contain 512 cubic feet in all, which with the average run of hay will come very close to a ton. It takes a very excellent quality of hay for a cube of seven feet to make a ton.

The rule for estimating the number of tons in an ordinary stack is to multiply the length in feet by the width in feet and this by the height to a point where the stack would be level. This height is sometimes considered one-half the height of the stack. The result divided by 600 will give a very good measurement of hay, being the number of tons in the stack.

To estimate the contents of a round stack, says the Farmer, we multiply the square of the distance around the stack in yards by four times the height in yards and point off two places from the right and this will be the number of cubic yards in the stack, which divided by 30 will equal the number of tons. For instance, a stack measures 20 yards around the bulk and is eight yards high, to find the number of tons first square the distance around the bulk 20 yards which would be 400, multiplying this by four times the height eight yards, we would have 12,800, pointing off two places from the right making 128, which, divided by 30 gives 4 and 4/5 tons of hay in the stack.

Sells for White Oaks.

White oaks have few side roots, but each has one long tap root which extends far down into the ground. These roots get most of their food from the clay subsoil below. Lime and manure have a number of side roots which extend far out in the surface layer. They get the bulk of their food from the surface 12 inches of soil. Oaks should never be attempted in very rich soil, or clay and manure in poor clay soils.

Clay soils and soils which become packed easily, need organic matter. To these soils a great deal of manure should be applied or they should be seeded to some kind of grass. The grass roots decay and increase the amount of organic matter.

Clay soils and soils which become packed easily, need organic matter. To these soils a great deal of manure should be applied or they should be seeded to some kind of grass. The grass roots decay and increase the amount of organic matter.
